

High Park Little League *Rowan's Law* - Coaches Concussion Code of Conduct

I can help prevent concussions through my:

- Efforts to ensure that my athletes wear the proper equipment and wear it correctly.
- Efforts to help my athletes develop their skills and strength so they can participate to the best of their abilities.

I will care for the health and safety of all participants by taking concussions seriously. I understand that:

- A concussion is a brain injury that can have both short- and long-term effects.
- A blow to the head, face, or neck, or a blow to the body may cause the brain to move around inside the skull and result in a concussion.
- A person doesn't need to lose consciousness to have had a concussion.
- An athlete with a suspected concussion should stop participating in training, practice or competition **immediately**.
- Continuing to participate in further training, practice or competition with a suspected concussion increases a person's risk of more severe, longer lasting symptoms, and increases their risk of other injuries or even death.

I will create an environment where participants feel safe and comfortable speaking up. I will:

- Encourage athletes not to hide their symptoms, but to tell me, an official, parent or another adult they trust if they experience **any** symptoms of concussion after an impact.
- Understand and respect that any athlete with a suspected concussion must be removed from sport and not permitted to return until they undergo a medical assessment by a physician or nurse practitioner and have been medically cleared to return to training, practice or competition.

By signing here, I acknowledge that I have fully reviewed the age-appropriate *Rowan's Law* concussion resources and the Toronto High Park Little League Removal & Return to sport protocol, and commit to this Concussion Code of Conduct.
